1998, decided to recommend to the National Development Council a reduction in the target rate of growth of GDP from 7.0 per cent per annum to 6.5 per cent per annum average over the five years of the Ninth Plan. This has been done to take into account the actual realisation of 5.1% growth during 1997-98 (i.e., the first year of the Ninth Plan) and expected realisation of about 6% growth during 1998-99 (i.e., the second year of the Plan). Implicit in this target is more than 7% of average growth during the remaining three years of the Plan.
